Dear Bob:

This letter may be considered formal approval of the procedure set forth in your CMCC Doc. No. 151X5.950 for the transfer of printed circuit boards from FOG spares to the Navy development program.

Sincerely,

Dan

Dear Dan:

As discussed by telephone with you today we have transferred one set of System 3 -02 printed circuit boards from FOG spares to the Navy development program. This transfer was necessary to avoid an extremely long delay in the sensitivity development work for the System 3 M-2 since production of -02 boards will not be available on that program until the end of March and several weeks of development work are required.

We plan to replace the transferred set of -02 boards from the Navy production run when they first become available. We do not believe this transfer will greatly inconvenience FOG since they will have additional spare boards available in February. No change in cost or funding is involved.

Your approval is requested for this transfer.

Sincerely,

STATOTHR

Bob
